Program Description

The David Eccles School of Business MAcc program provides advanced training in audit / financial, tax and accounting information systems. The program is dedicated to training future accounting leaders. Completion of the program provides the background required to sit for the CPA exam in Utah. The course work is designed to give students the conceptual, technical, analytical and communication skills required in the accounting profession as well as networking and other opportunities to interact with leaders in the profession. MAcc students are exposed to a range of educational opportunities including real-world experience at the School's professional centers and groundbreaking research. You will learn accounting from faculty who shape the future of accounting.
